Protecting What You Value Most

www.txf.us

Texas Fire & Sound (TFS) is a leader in the life safety industry with over 25 years in business. We offer a wide array of products and services to properly analyze, design, implement and install service and product that our Clients need.

Who We Are

Texas Fire & Sound is an experienced and recognized leader in the Life Safety & Security Industries. We have the expertise to design, install and service systems that will provide the user with the highest level of confidence in the critical and essential systems necessary in today's changing Commercial, Industrial, and Multi-Family environments. We specialize in design/build on new projects, existing system updates/upgrades and tenant improvements. TFS offers all phases of Life Safety and Security at professional and competitive pricing. We realize that there is no substitute for repeat and referral business. That is why customer satisfaction is still our number-one business goal.

About Texas Fire & Sound

Products

- Mass Notification Systems
- Security Systems
- CCTV Systems
- BDA
- Access Control Systems
- Fire Detection/Alarm
- Special Hazard Fire Suppression Systems
- Automatic Fire Sprinkler Systems
- Fire Pump Systems
- Fire Extinguishers
- Off-Site Monitoring
- Sound Systems
- Nurse Call
- Clock System

Field/Site

- Electrical Supervision & Installation.
- Certifications & Training

Design

- Hazard Analysis
- NICET Certified Design
- APS
- Consulting
- AutoCAD
- Electrical & Mechanical

Service

- 24/7 U.L. Listed Monitoring
- 24/7 Emergency Call
- Fire Extinguisher Inspection, Testing & Training
- Suppression System Inspection and Testing
- Fire Sprinkler System Inspection and Testing
- Fire Pump System Inspection and Testing
- Fire Hose Inspection and Testing
- Fire Alarm System Inspection and Testing
- Emergency/Exit Light Inspection and Testing
- Backflow Preventor Inspection
- BDA Inspection and Testing

Fire Alarm • Access Control • Burglar Alarm • CCTV • Integrated Systems
Extinguishers • Sprinkler • Suppression • Backflow Devices • Hoods • Fire Pumps

Depth of Knowledge

TFS strengths are evident in their application expertise gained through decades of operations focused on safe-guarding lives, assets and the environment. Our extensive knowledge in design challenges for key market sectors such as Primary and Secondary Education, Universities, Military, Industrial, Oil & Gas, Residential, Institutional, and Commercial facilities is second to none in the industry.

Application Solutions

- Internet Service Providers
- Historic & Cultural Properties
- Industrial Control Rooms
- Financial Institutions
- Military Installations
- Telecommunications Facilities
- Anechoic Chambers
- Health Care Facilities
- Process Controls
- Electronic Manufacturers/Clean Rooms
- Petroleum Refineries
- Aviation Facilities/Flight Simulators
- Commercial Buildings
- Retail Buildings
- Educational Campuses/Facilities
- Warehouse and Storage Facilities

Fire Suppression

State-of-the-art delivery systems deliver a broad array of extinguishing agents, including the latest gaseous agents as well as water, mist, and CO₂.

Detection and Alarm

Detection and alarm systems are critical to proper operations of any fire protection system. Solutions include high sensitivity smoke detection, linear heat sensing cable and both conventional and intelligent control panels.

Nurse Call

You can trust in the superb quality and consistently dependable nature of the traditional wired emergency communication systems and the latest wireless emergency communication technology solutions available.

Mass Notification

Integrating fire, security and communications systems to provide emergency notification to large groups is becoming common and, unfortunately, necessary. The key is getting the right message to the right people as quickly and accurately as possible with the maximum amount of flexibility.
